Twenty-four weekend traffic accidents in the Quad-City area resulted in injuries to 19 persons. Those injured were hurt in eight mishaps, six of which were multiple-injury accidents involving two or more persons and including four persons hurt in one crash.

Four persons were injured when auto driven by Rufus Owens, 28, of 1207 Bissell street, Owens, and Edward L. Finley, Alton, collided at 6:15 a.m. Saturday at 18th and State streets.

Three persons were injured at 1 p.m. Saturday as an auto crashed through a plate glass window at the north side of the Burger Chef drive-in restaurant, 2642 Madison avenue.

They were Norman French, six years old, 2533 Boyle avenue, who was admitted to St. Elizabeth Hospital for treatment of multiple cuts; his brother, Doug French, 12, treated for scalp and right hand lacerations; and Mrs. Shirley Goodall, 19, of 3811A Namoki road.

Mrs. Goodall, who was pushed through the window by the auto, suffered scratches and cuts on the lower legs and multiple bruises and cuts about the body. The two boys were inside the restaurant and were cut by flying glass, witnesses said.

The motorist, M. D. Lynn R. Grable, 51, Cottage Hills, had pulled up to let another car out of the Burger Chef parking lot. She said she then accidentally touched the accelerator pedal, propelling her auto through the window and injuring the three patrons.

## Starch Co. Strike Issues Reported Still Deadlocked

Further negotiations in the Union Starch & Refining Co. dispute were scheduled to get under way early this afternoon in the U. S. Mediation Service offices in St. Louis amid reports that the issue of craft realignment still was in deadlock.

The full negotiating staffs of both the company and the Oil, Chemical and Atomic Workers Union, Local 7683, met Thursday and Friday to consider results of a study of proposed job reclassifications advanced by the company. It was understood, the union spokesman said, that the union's negotiating staff, said, "we're still deadlocked," adding that there was little progress in the Thursday and Friday meetings.

### Another Angle

"We are approaching the matter from another angle," Shem-Subcommittee members were named to study detailed descriptions of job reclassifications which the company is demanding to eliminate an overlapping of crafts on starch plant jobs. The issue is the major stumbling block to settlement of the strike of about 420 union employees which went into its 134th day today.

Today's negotiating sessions are to get under way at 1:30 p.m. in the St. Louis office of the U. S. Mediation Service. The subcommittee members were named to study detailed descriptions of job reclassifications which the company is demanding to eliminate an overlapping of crafts on starch plant jobs. ### General Steel Wins Nail Safety Award

(Picture on Page 7.) General Steel Industries, Inc. received a Certificate of Safety Achievement at the 20th annual Technical and Operating Conference sponsored by the Steel Founders' Society of America in Cleveland, Ohio, last week.

The award is for an accident frequency rate of less than ten during June, July and August. The award was made, along with those to other firms, at a luncheon session held in connection with the conference.

Paul A. Williams, supervisor of industrial engineering at GSI, accepted the award for the firm.

He was treated at St. Elizabeth Hospital for cuts to his left knee and then was returned there for treatment of cuts to his lower lip.

## 2-Cent Tax Boost Being Studied By County

### Supervisor Board May Act Tomorrow; Liquor Law Also Pending

The Madison county board of supervisors will consider a resolution providing for a two-cent increase in the county general tax rate at a meeting at 9:30 a.m. Tuesday in the courthouse at Edwardsville.

The increase was authorized by the last session of the state legislature and is designed to help offset deficit financing with which the county was faced for the first time this year.

The current general fund rate is 3.68 cents per \$100 assessed valuation. The county previously utilized a 10-cent rate before a court interpretation of the Hedgepeth act reduced the rate to the current level, which was the rate in use at the time the law was passed.

With the increase, the county board hopes to prevent a second out-of-balance budget. The new budget for 1966 is to be adopted at the December meeting.

### Liquor Law, Maryville Road

The county board also is expected to consider a new liquor ordinance which updates and defines terms in the old county law. No changes in the county tax rate are included.

The agenda also includes bids on a sheriff's patrol car, a coal bin and a request for bids for concrete work at the county jail, an agreement to improve Maryville road and right-of-way repairs.

A proposal to increase county building permit fees—from \$10 a home to a \$15-\$40 range and to boost fees for zoning changes—from \$25 to a \$25-\$100 range—will be presented to the board tomorrow.

Building Official Jack Clifford has reported.

### Economic Group to Discuss Grant Plea

Board members of the Madison County Economic Opportunity Commission are scheduled to meet today at 7:30 p.m. in the courthouse at Edwardsville to discuss application for a federal grant to finance a study of factors on which future project allocations will be based.

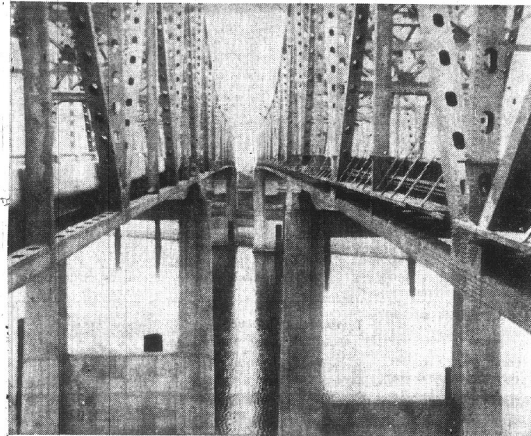

Hugh Harrison, Venice, vice-president of the county commission, urged all members to be present at what he termed a "very important meeting."

He said members are to discuss the opening of the commission's first permanent office. Decision as to whether the office will be located in Edwardsville or in the Quad-City area will be made in the meeting.

He added that a recent plea for donations of office furnishings and office equipment has resulted in the contribution of sufficient items to begin office operations.

### Undergo Surgery At Local Hospital

(The following are recovering at St. Elizabeth Hospital from surgery which they underwent since Thursday: Evangeline Clark, 2112 Douglas street; Geraldine Earhart, 3124 Circle drive; Andy Turnbull, 1831 Lindell drive; Steve Svaglic, 1312 Grand avenue, Madison.

## Armed Bandit Gets \$89 in Holdup at Briarcliff Store

An armed robbery at a store, theft of equipment valued at \$100 from a home under construction and the arrests of two men charged with a bicycle and tractor theft were among 20 crimes reported to Quad-City and county authorities during the weekend.

A youthful bandit who drank soda until the store was clear of all customers, robbed Mr. and Mrs. Richard Hughes, operators of the Briarcliff Confectionery, 220 Briarcliff, of about \$89 to \$90 in cash and a bicycle.

The robber, who told Mr. and Mrs. Hughes at least three times that "I don't want to hurt anybody," refused to give a name.

He was charged with the current check which Hughes had removed for him from the cash register. Hughes said the man, about 21, entered the store shortly before 9 p.m., ordered a soda and walked to the back of the store to drink it. As the last customer left the confectionery, the bandit walked forward, displayed a .32 caliber revolver and told Hughes: "Mister, don't give me any trouble. I don't want to hurt anybody."

The bandit ordered Mrs. Hughes, who was standing by the cash register, to give him the money, but Hughes waved his hands away from the register and picked up the currency and checks which were all in the same till.

He was handed over the cash and checks, the robber remarked that "I don't want any checks," and instructed Hughes to separate the cash. He took the money and left by the front door.

He was described as about five feet, ten inches tall, weighing 160 to 165 pounds, with sandy hair and wearing a yellow-gold shirt, black trousers and black shoes.

"I don't think he would have hurt anyone," Hughes said. "He kept repeating that he didn't want to hurt anybody."

### Two Theft Charges

Danny H. Knight, 27, of 2007 Sixth street, Madison, and Andrew Wiley, 20, of 945 Niedringhaus avenue, were arrested at 4:20 a.m. Saturday at East 23rd street and Ridgeview avenue on charges of theft of less than \$100.

They were caught with a bicycle and a child's riding tractor. Wiley said they stole along Buxton and Myrtle avenues, police said. The owners have not yet been located. The two were kept in jail pending hearings set for today.

Equipment worth \$1000 was stolen from a home being built in the Burton subdivision by Ralph Burton, Rural Route One, was discovered at 6:25 p.m. Friday. Entrance had been gained by moving plywood left across a door opening.

### Nestle Co. To Expand Local Plant

The Nestle Co., Inc., 21st and Adams streets, announced today it will expand instant coffee manufacturing facilities at the local plant.

Expansion will be to the south along Adams street. The firm last year purchased a one-block section of 21st street, west of Adams street, from the city, and also has acquired property of the former Granite City Supply Corp. and the new Young and Greenwald Co., which relocated.

Nestle's southern boundary will be adjacent to Yelton Supply Co. and A. P. Green Co. which are along 20th street.

The local plant, one of the men modern instant coffee plants in the world and the most modern in the Nestle system, is to be expanded for both processing and warehousing, according to Howard D. Wellman, plant manager.

Plans are now being drawn up for the building, but no estimates are available of the cost of the construction, which is expected to start in the spring of 1966, Wellman added.

Latest expansion of the local plant, which was rebuilt following a disastrous explosion four years ago, was completed in January of this year. Present employment is 115 persons; and Wellman said this will not increase materially when the new expansion is completed.

### Downtown Market Survey by SIU Begins Thursday

About 20 area graduate students will conduct the interviews. The study is being sponsored by the Downtown Granite City Shopping Center Association in conjunction with the university bureau.

The study is concerned with the future growth of the immediate downtown area and its effectiveness will depend, largely, on the conscientious opinions and ideas expressed by both business and consumers, according to Richard Judd, graduate administrator of the project. Judd resides in Granite City.

### \$700 Fire Damage at Home, Children Escape

Four children of Mrs. Wanda Birk escaped serious injury at 7:30 a.m. Sunday when their one-story concrete block residence at 2823 (rear) Marshall avenue caught fire. Two were reported to have sustained minor burns not requiring treatment.

The blaze began in a utility room and was attributed to an overheated gas heater. Granite City firemen, who estimated damage at \$400 to the building and \$300 to the contents, remained at the scene an hour.

### 4th Successful Year; Hundley Predicts Total Will Reach \$350,000

The morning mail and telephone calls to key division leaders resulted at 10 a.m. today in the 1966 United Fund campaign topping its \$348,509 goal with pledges amounting to \$348,509, or 100.1% of the quota.

In announcing this morning's successful achievement, John R. Hundley, general campaign chairman, said the drive is by no means closed. "We are still working and we will go over the top by a substantial amount—at least \$1500—by the time all pledge cards are turned in," Hundley stated.

He said members of the campaign cabinet still are at work to complete the solicitation for 1966 funds to operate the 22 United Fund agencies. All are now assured of getting the full amounts of their 1966 operating budgets.

### Today's Activity

Today's activity included quick telephone contacts with several division leaders, who also are members of the campaign cabinet. The call to the city hall at Venice brought out a \$550 increase in the amount originally pledged, and the campaign went over the top.

This mark's fourth time since the United Fund was formed in 1958 that the goal has been over-subscribed.

The earlier successful years were 1960 when Thomas Sullivan was chairman; 1961 when James L. Hamilton Jr. was chairman; and last year, when Joseph Glick was chairman. Last year's goal of \$300,000 was reached by Bernard Pimney, chairman of the Professional Division.

### Campaign Cabinet Workers

The campaign cabinet members who aided Chairman Hundley with the successful win of the campaign are:

Carl Mathias, co-chairman; L. C. Parker, who was in charge of the Fair Share giving program; Carl Buzenas, publicity chairman; Melvin McKay, audit chairman; John J. Wagner, chairman of the Industrial Division.

William E. Hoelscher, chairman of the Granite City and Mitchell Division; Mayor Stephen A. Macrae, chairman of the Commercial Division; and Mayor John J. Lee, chairman of the Venice Division.

### 100% Divisions, Awards

Hundley reported two other divisions reached or topped 100% of their quotas last week. The Commercial Division, headed by Reeves, reached exactly 100% and is expected to go higher; while the Madison Division, headed by May, reached 102.5% of its quota.

Additional firms qualifying for Fair Share giving recognition are Huber Furniture Store, Fleishman's Quality Corner, and Schermer Bros. Market, all second year awards.

Employee groups that last week qualified for Fair Share giving awards are Milnor Manufacturing Co., fourth year, and Venice Post office employees, fifth year.

Special guests will be survivors of 146 deceased members on the council rolls. They were invited to participate in a Mass and corporate Communion at 8 a.m. Sunday at St. Elizabeth church.

A special feature will be a chalice ceremony in honor of the late President John F. Kennedy, who was a fourth degree K. of C.

A chalice with his name inscribed upon it is to be sent to Mrs. Kennedy. It will be presented to a missionary priest for daily use in the celebration of the Mass.

Mrs. Kennedy and her children were invited to the event by Dan McGee, chairman, but her personal secretary sent the representative of the former first lady, pleading previous commitments.

### Order of Exercises

The order of exercises of the ceremony will be opened by John Kazman, grand knight, following presentation of colors by Venice-Madison American Legion Post 307, a pledge to the flag, and the group singing of "America."

Rev. Lawrence Mattingly, council chaplain, will lead in recitation of the Lord's Prayer, and a mixed choir from local parishes will sing "Ave Maria." Steve Saltich and Edward Lenzi sr., past grand knights, will present scripture readings, followed by prayer in union.

John Straubinger will present the address of the exercises. The program will continue with the singing of "Pie Jesu Domine," another scripture reading, prayer in union, the singing of "Lord Have Mercy," a call for final prayer by the grand knight to the deputy grand knight to the chancellor, and the singing of the "Star Spangled Banner."

The eulogy on the late President will be delivered by Horace Calvo, Granite City attorney.

A special section of the auditorium will be reserved for relatives of deceased members, and the chairman called for the return of reservation cards listing the number of seats desired.

## Winter Driving Advisory Issued by Police Chief

Winter driving is different than driving under other seasons, Police Chief Raymond Willard said in issuing a traffic advisory today.

"The summer you might get away with a weak battery, smooth tires, worn windshield wipers and other faulty equipment, but winter driving will point up the need for all of your safety equipment to be in good condition."

"You can't stop on an icy dime, but you will have much better control if your tires have good tread. You need good wiper-arm tension and live wiper blades to cope with snow and sleet. Plenty of windshield solvent—not just plain water—is to keep the windshield clear if necessary."

Chief Willard emphasized the necessity of a good tread on regular tires for winter driving, but better yet, snow tires inflated at the recommended pressure. For winter's worst weather he recommended chains. When the snow is deep or when the roads are covered with ice, there is nothing better than tire chains for traction and skid control, he said.

### Adjusted Brakes

Well adjusted brakes with good linings and properly aimed headlights as well as tail and stop lights are important at all times, he continued. Under winter driving conditions, however, this equipment can make the difference between accident-free driving and a smashup.

Exhaust leaks can be deadly when windows are rolled up, he said, so make sure your muffler and tailpipe are in good condition.

During bad weather, motorists should carry these items of equipment in their car trunks: a bag of coarse sand, metal traction mats, snow shovel and tow chains or strap and a booster cable for cold weather starting. A snow brush with a plastic scraper on one end should be carried inside the car, Chief Willard said, also emphasized that seat belts with the sender asked to stamp are never out of season.

## MORE ABOUT Belleville

top shape for the game. He managed to get 42 yards on eight carries.

The Warriors ended the season with a 5-4 overall record and a 3-3 conference mark, while Belleville is now 7-1 overall and 4-0 in conference play. The Warriors will clash head-on with East St. Louis' Flyers in the traditional Thanksgiving Day game at East St. Louis.

Late Friday, about 11:30 p.m., 29 seniors handed in their game jerseys for the last time. Twenty-nine seniors walked out of the football locker room with their helmets, and six football coaches took a deep breath.

There was no shouting, yelling or jumping for joy—just the sigh of relief after a long, hard season.

And so, for the 1965 Granite City Fighting Warriors, that's the way the world ended—not with a bang, with perhaps a whimper, but also with memories of a rugged season-long challenge well-fought, with better-than-average success.

## Charges Against Former State Officer Dismissed

Conflict of interest charges against Theodore J. Isaacs, former Illinois state revenue director, were dismissed Friday at Springfield by Circuit Judge Creel Douglass, who said some of the allegations did not constitute law violations and others were based on sections of laws that have been repealed.

It was disclosed in September 1964 that Isaacs owned part of a firm which sold over \$1 million worth of envelopes to the state. Judge Douglass ordered the six Illinois House Legislative Ethics Commission members to agree Wednesday and show cause why they should not be cited for contempt of court.

### Calling All Home Makers

By Aaron Fredman  
FLOOR LAMPS  
AND TABLE LAMPS

During the last few years, there has been growing emphasis on the decorating aspects of lamps and now you have available every possible size, style, color and type of lamp for every decorating use.

Actually, the properly selected lamps can be the making of a successfully decorated room in your home. Aside from an endless selection of table and floor lamps, there is an ever growing assortment of pole lamps and tree lamps on the market. Of course, the basic use of any lamp is good lighting, but it is equally important that the lamps do something color-wise and decorator-wise wherever they are used. Tall table lamps on low tables are very popular. That's one decorating suggestion. We'd be happy to help you with your lamp selection and decorating. You may take advantage of our free decorator service.

So remember, when shopping, our decorating and sales staff here at Fredman Bros. Furniture Co., Niedringhaus and Delmar Ave. in Granite City, is always ready to serve you. We are open Monday, Thursday and Friday night until 8:30 p.m., other nights until 8:30 p.m.

Dear Mrs. Downing:  
Your letter and kind donation arrived today, and I want to take this opportunity to thank you and all the members of the Sequoia Indian Club for their hard work in making this contribution possible. Your most generous check in the amount of \$874.63 will help to make our dream of a new classroom building for the Indian children a reality. We had hoped to begin construction of this building early this fall, but we do not have sufficient funds available. This much needed building will, therefore, have to be delayed until spring. Education is of the utmost importance to the Cheyenne Indian children, as it is actually their only hope. Only through education, can they face tomorrow with the hope of a brighter future for their people. Please continue to remember us in your prayers, that it will not be too much longer before our dreams are realized. May God bless and reward you for all you have done for us. Assuring you of a special remembrance in all our prayers, I remain

## Aerospace Expert At Zero Defects Depot Seminar

A leader from one of the nation's largest aerospace corporations, which is a leader in the Zero Defects program, will be one of the main speakers at a Zero Defects seminar at the Granite City Army Depot on Tuesday.

The aerospace industrialist is N. Dwayne Gray, presently assigned as manager of the Martin-Orlando Zero Defects program. Gray has been in aerospace management for the past 12 years and has been associated with the Orlando Division of the Martin Co. since 1958.

Gray, a native of Shreveport, La., is one of the originators of the technique. It was begun by his company in Martin-Orlando in 1962 when that organization contracted a Pershing missile project.

Prior to assuming his present duties, Gray served as flight engineer with the Air Force during world war II, superintendent of flight tests at Fitchfield Stratos in St. Augustine, and section chief in the Quality Engineering Department at Martin-Orlando.

The goal of a Zero Defects program is to "do a job right the first time to prevent all defects."

INCREDIBLY STRONG . . . Tough, durable . . . no fiber can outwear nylon.

And no ordinary nylon carpet fiber can beat the strength of Cumuloft nylon. Cumuloft nylon is a continuous filament textured yarn that retains nylon's full strength.

RICHLY LUXURIOUS . . . You have to feel the lush depth underfoot! You have to see the rich surface . . . the fabulous new depth and clarity of color! Carpet of Cumuloft nylon pile is like no carpet you've ever owned. It has warmth and softness that is unbelievable.

RESISTS FUZZING AND PILLING . . . Cumuloft nylon is a continuous filament nylon, with no short loose fibers to pill up or fuzz. That's why carpet of Cumuloft nylon doesn't shed.

RESILIENT . . . Step on it. Jump on it. Carpet of Cumuloft nylon keeps coming back for more! The resilient nylon yarn springs back, resists matting and retains its luxurious texture.

EASY TO CLEAN . . . Because the smooth, non-absorbent Cumuloft nylon yarn resists dirt and dust, soiling stays right on the surface where you can whisk it off with the vacuum cleaner. Spills are no catastrophe either. Just spot clean with a detergent and water.

## Some Need To Apply For Benefits

This is the twelfth in a series of articles by Ralph Brasher, Social Security district manager of East St. Louis, telling what the social security amendments of 1965 mean to Quad-City families.

Working people past 65 who have not yet applied for social security benefits will need to make application to protect their new medicare rights.

Protection under the social security insurance and also under the voluntary medical insurance plan covers doctor bills and a variety of other medical services.

**Effective Next July**

Both groups go into effect in July 1966, and are available to all persons now 65 or over, or reaching 65 in the next few years, whether or not they are eligible for cash social security benefits—and whether they are retired or still working.

Because benefits under both the hospital and the medical insurance programs are payable whether a person is retired or still working, there is no reason that a person should be older than he is to get them.

### TODAY'S INVESTOR

BY THOMAS A. O'HARA  
Chairman, Board of Trustees  
National Association of Investment Clubs

**Q. How do I determine when I should sell stocks?**

A. Assuming you have bought stock in a well-managed company, one that is paying regular dividends and is growing as fast as the economy in general and its own particular industry in particular, you probably will hold it indefinitely.

Or you will at least hold it until you need the money for something else, or until careful study and thorough knowledge convince you that you can invest it to better advantage elsewhere.

Few of us are as astute that we manage to buy a company's stock at its very best price and sell it at the precise moment it reaches its peak. Attempting to do so involves an element of trading that the National Association of Investment Clubs strongly advises its members against.

It is better to buy stocks with an idea of long-range growth and dividends than to try to outguess the market.

However, a distinction must be drawn between this kind of trading and between relative and absolute gains. We have to admit we make a mistake in buying the stock in the first place.

Some investors get emotionally involved with their stock hold-

ings and hang onto them out of a misplaced loyalty.

You should review your stocks once a year and, if, on careful study, one appears not to have the potential you originally figured it did, then you should rid yourself of it.

**Q. What can I expect to realize out of my stock market investments?**

A. A recent study by the University of Chicago indicates that a random selection of stocks purchased in the first part of this century brought the investor a return of approximately 9% compounded annually.

The survey backs up an NAIC contention: You will likely make more money in the long run by buying and holding good-grade securities than you will if you engage in short-term buying and selling.

Have you a question about your own or your club's investment program? Mr. O'Hara will be glad to answer it. Write to T. E. O'Hara, National Association of Investment Clubs, Department 106, 1066, Detroit, Mich. 48201, enclosing a stamped, self-addressed envelope.

## THE PASTOR SPEAKS

CAPT. RICHMOND H. HILTON  
Granite City Army Depot

Seems as if most everyone has his own theory as to why we have so much crime and disorder for law these days. Well I have my ideas about it, too.

In Yellowstone Park, Wyoming, I watched a father and mother help their four young children enter a large bison or bear to put his head through the open window of their station wagon.

I was amazed, for I'm a big game hunter and have a lot of respect for wild animals. In front of a large sign: Do Not Feed Bears Under Penalty of Law.

During my three days in the area, I saw many similar incidents.

**Disrespect For Law**

The question that continually nagged at my mind was, "How can parents possibly expect their children to be obedient or to grow into law-abiding citizens when they themselves openly break the law in the presence of children—and even encourage their offspring to do the same?"

Now what about you and me? Do you openly break the speed limit, run stop signs and excuse

**Pants May Be Poisonous**  
At this time of the year the brilliant flowers, seeds and berries are a special attraction, particularly to children in the "hand-to-mouth" stage. But because many common indoor and outdoor plants are poisonous, children should be cautioned not to put berries, seeds, fruits or leaves into their mouths unless the items have been washed and handed to them by adults.

Children should be taught that they should not put any part of plants into their mouths. You mothers should place house plants out of the reach of small children.

Many plants can cause death if children eat enough of them. Others can cause severe pain. Diffenbachia and other plants of the "dumb cane" family cause the mouth to swell so that speech is impossible.

A partial list of poisonous plants that may be common now and in the months ahead includes: hollyhocks, chrysanthemums, rhododendrons, philodendron, ivy, poinsettia, holly berries and mistletoe. Keep these plants out of the reach of children. This advice also applies to such poisonous bulbs as tulips, lilies, daffodils and narcissus.

If a small child eats part of any plant, or is suspected of doing so, call a physician or the nearest poison control center immediately. There are 52 such centers in the emergency rooms of the hospitals in Illinois, and they operate on a 24-hour basis.

Although a plant may not be poisonous, don't wait for symptoms to develop before taking action.

**Adapt Serving Method To Number of Guests**  
By simply changing your serving style you can often solve the problems of handling a holiday dinner bigger than your dining facilities now permit.

There are basically three styles of serving: American family style, Russian service and buffet.

American family style calls for the roast to be carved by the head of the household. He serves carolers for shut-in members of the church. This will be held Dec. 18. Mr. and Mrs. Philip Thies, 2508 Stratford lane, invited the carolers to their home for refreshments.

A Jan. 6 tour of Falstaff brewery was discussed.

A movie, "The Gift," was shown to the members. Those present were Mr. and Mrs. Philip Thies, Mr. and Mrs. Bill Smith, Mr. and Mrs. Charles Zeugin and Mr. and Mrs. Jack Dyer. The next meeting will be held Dec. 11.

## Disabled Veterans to Get Higher Benefits Dec. 1

More than \$5,000 Illinois veterans with service-connected disabilities will receive higher compensation payments beginning Dec. 1, John B. Naser, manager of the Veterans Administration regional office in Chicago, said today.

The bill increasing compensation payments was signed into law the last day of October by President Johnson to assure veterans of getting the additional benefits in checks due the last day of the year. In signing the law, the President said, "The Nation has no greater obligation than its debts to those nearly two million Americans who have been maimed in mind or body in the service of their country."

Naser said that the increase totaling \$176 million annually is the second in three years. Indirect A. and Doris May Focht in Madison county circuit court to \$1 a month for those who collect a \$300 legal fee for handling a bankruptcy case for the defendants in 1963.

Even more substantial increases are provided under the new law for more seriously disabled veterans (those suffering multiple amputations) whose monthly compensation payments may now total more than \$800.

For veterans whose disabilities exceed 90%, the law also provides increases of approximately ten percent in the additional allowances provided because of dependents.

Other changes affecting dependents that are brought about by the bill increase from 21 to 23 years the age limit of a child attending school on whose behalf a dependency allowance may be paid. The additional allowance payable to the veteran-parents for these school children has been increased to a monthly maximum of \$40.

The new law also removes the age requirement for Medal of Honor winners who may seek the established \$100 a month payment.

# American Federation of Arts Exhibit at SIU-SW, Alton

An exhibition of contemporary art being circulated throughout the U. S. by the American Federation of Arts has been opened at Southern Illinois University-Southwestern Campus Loomis Gallery at Alton and will run through Dec. 1.

The exhibit is called "Spontaneous Creation, the Unintended in Art" and brings together examples of painting and sculpture by contemporary artists whose works, though stylistically diverse, are both intuitive and extemporaneous.

According to a spokesman for the American Federation of Arts, "the element of spontaneity has entered into western art during this century to an extent unknown before."

"In the Far East, particularly in Japan, there has always been a tradition of the accidental in art; art controlled only by the taste of the creator. The momentary, the expressive, the wash of calligraphic stroke, a wash of pastel hue, a splash of color."

"Perhaps more than anything else, this tradition has led to a universality in art, unhampered by figurative restrictions or symbolic references and has broadened the scope of man's understanding of the unconscious."

Included in the exhibit will be works by Arp, Margo, Blum, Arman, Yamamoto, Vacchi, Alechinsky, Yamashita, Saint-Phalle, Okabe, Antreasian, and others. Gallery hours for the exhibit, open to the public without charge.

An illustrated booklet entitled "Protect What Is Yours" is being distributed today by the State Highway Police and the State Department of Public Safety.

It is aimed principally at small businessmen and to enable police agencies to provide better and more effective service. Copies may be obtained by contacting district state police head-

quarters or writing the central headquarters, 401 Armory building, Springfield. All police chiefs and county sheriffs also have been offered copies for distribution.

The brochure provides various types of advice. Examples are: Illuminate areas where break-ins most likely will occur. Avoid exposed wire that might be cut. Place protective screens around bulbs. Light interior of premises, and place safes where they will be visible through the front door or windows. Bolt safes to concrete or steel beams.

Make Deposits  
Make regular bank deposits

two or three times a day, avoiding a routine.

Don't take checks from strangers and know the endorser. Satisfy yourself that presenter is a good risk and that you will be able to locate him in event of error.

Shop smartly. Illinois law permits a merchant to detain a person where probable cause exists that he is attempting to steal. Balcony offices with glass windows or peepholes can be effective in theft prevention.

Clues to stolen cars include broken or missing ventilator glass, wired on or loosely mounted license plates and clean plates

on dirty cars or vice-versa. Question the following uses of credit cards: (User may be in a stolen car or missing credit card); Attempts to purchase large or excessive quantities of merchandise; schemes to obtain cash through use of the card; purchases of merchandise "not installed."

If Crime Committed  
If a crime has been committed, look around, remember where you have been, what you may have touched, call or send for police. Don't attempt to survey the loss. You may inadvertently destroy evidence, especially fingerprints. Do not allow anyone, including family or employees, in the building or near the scene of the crime.

Note the time of get-away. Try to remember any person who, in the last several days, was able to survey your premises. Cooperate with investigating officers. In event of armed robbery, don't resist, the robber may panic and shoot. Note as many things about the occurrence to aid in early apprehension. Method of get-away is a valuable tool. A license number is valuable evidence, or even part of it, so write it down right away.

Relative comparison is a key factor in determining descriptions, such as height and weight. The booklet illustrates various types of facial features.

## Rule Out Professional Bondsmen in Crime Cases

Chief Circuit Judge Harold R. Clark has ruled at Edwardsville court, while other sections prohibit professional bail bondsmen vides an alternative method of no longer will be allowed to sign the full amount in cash, criminal bonds in the Third Judicial Circuit of Madison and Bond counties as the result of 1965 legislative amendments to the Illinois Criminal Code.

Judge Clark held in an order entered with the circuit clerk's office that criminal code sections to operate in Illinois. But he declined to speculate as to whether bonds are "the only methods authorized by law for the giving of and taking of bail." The order was issued after the court reviewed Senate bill 622 passed in July and signed by the governor on July 22. It also cites a ruling by Illinois Attorney General William G. Clark finding the professional bondsmen no longer can sign criminal bonds in Illinois under the present law.

Judge Clark ordered Circuit Clerk Willard V. Portell to advise all deputy clerks of the new law and to comply with it. The 10% cash bail section of the law permits deposit of 10% of the bond amount.

Portell has invited police magistrates, police chiefs, deputy clerks and special deputy clerks to attend a meeting at 6 p.m. today in the Rose Bowl restaurant for discussion and clarification of the new bail bond laws. Judge Clark and Portell will be in charge of the meeting.

Circuit Judge Austin Lewis will outline irregularities in bail bond procedure that have occurred. The meeting will be a dinner session.

## Secretary Named For 'Friends of Library' at SIU-SW

Mrs. Stephen R. Stimson Jr. of Edwardsville has been appointed executive secretary of Friends of the Library at Southern Illinois University-Southwestern Campus.

She was named to the post by the board of directors of the SIU Foundation on the recommendations of Kenneth R. Miller, executive director of the Foundation, and Dr. Ralph McCoy, director of university libraries at SIU.

Mrs. Stimson, whose offices will be located in the university's new Elijah P. Lovejoy Memorial Library on the Southwestern Campus, will promote interest and membership in Friends of the Library among students and faculty of both SIU campuses and the general public.

Friends of the Library was conceived in 1960 to encourage gifts of individual items, collections, and money to the libraries.

In a letter to Dr. McCoy written in 1960, President John F. Kennedy said, "... We cannot neglect to the issues of our society and of the world at large unless we are well furnished with the insights which are so well afforded by the resources of a library."

The Lovejoy Library, whose head librarian is Dr. John Abbott, has a number of gift collections, including a 125-volume medical historical collection donated by St. Mary's Hospital in East St. Louis, and 3000 volumes in the areas of fine arts, history, literature, cuisine, travel and architecture given by Mr. and Mrs. E. W. Volentine of Taylorville.

A native of Leonard, Mo., Mrs. Stimson attended public schools in Kansas City and received her bachelor of journalism degree from the University of Missouri in 1942.

She worked on a small daily newspaper in Arkansas and at one time was the youngest advertising manager of a daily in Oklahoma. She later joined the Associated Press, Arkansas State Bureau in Little Rock, where she covered the Arkansas State House and Senate. She is a past editor in AP's Southwestern Division Headquarters in Kansas City.

A proposal was discussed to contribute records of Pope Paul's visit to the United Nations and to the United States to area parochial schools and public libraries. A committee is to investigate.

John Kazman, grand knight, appointed Leroy Lamanah and Edward Boyer to the sick committee for December. Steve Saltich, Columbus Home president, reported on the painting of club rooms now under way.

## Farm Column

By Truman M. May

Madison County Farm Advisor

### Good Time to Sell Timber on Farm

If you've been thinking about selling some of the timber on your farm, you might never find a better time to do so than now.

The summer timber survey compiled by the Illinois Cooperative Crop Reporting Service shows prices steady to \$10 per thousand board feet above a year earlier.

Stumpage prices for walnut veneer range from \$150 to \$800 per thousand board feet, while FOB log prices range from \$300 to \$800 per thousand board feet. Stumpage prices range from \$100 to \$200 for white oak face veneer and \$200 to \$300 per thousand board feet FOB for logs.

The timber price report serves only as a guide for figuring the value of your timber. Accessibility, site and terrain, distance to market, size of sale and tree size and quality may affect its value.

If you're inexperienced in the timber game, you may want to brush up on your timber terms.

Face veneer refers to logs that are taken to veneer plants and cut into sheets for use in the furniture trade and for panels.

Larger logs command a higher price per thousand board feet than smaller logs.

Container veneer refers to logs that are cut into veneer and then manufactured into baskets and similar containers.

Cooperage is the manufacture of barrels. Heading bolts provide the ends of the barrel. Slave bolts provide the barrel staves.

The cord foot, also called the bolt foot and the tape foot, is used in marketing cooperage bolts. The measurement is made on the end of the split bolt from one outside corner to the other. Some buyers measure only from one outside corner to the other outside corner of the heartwood and the grain taper. Deckage in price caused by mold has been as much as 30 cents a bushel in some cases.

Environmental conditions, nutrient deficiencies such as potash, early use of defoliant, diseases or any other conditions that interfere with normal plant growth may be responsible for the development of moldy beans. Seeds that are prematurely killed become shriveled and are highly susceptible to invasion by numerous saprophytic fungi. Such fungi live on dead or dying organic matter. Excessive moisture at harvest time increases the growth of such fungi.

The fungi that cause purple seed stain, pod and stem blight and downy mildew are capable of directly attacking seed pods. Weather conditions have been ideal for purple seed stain infections this year. Pod and stem blight was prevalent in the state this year. Stem canker, brown stem rot and charcoal rot cause premature death of infected soybean plants. These diseases were also prevalent this year.

Storage of moldy beans may result in further damage and loss. Storing moldy beans with a moisture content above 15% is very risky. Moldy beans should not be used for seed. Germination is usually very poor, and such diseases as purple seed stain, pod and stem blight and downy mildew are seed-borne. One lot of soybean may be damaged by two or three kinds of fungi.

**Farm Record Book** The Illinois Farm Record book has been completely revised and the new book will be used in 1968. A county meeting to explain the use of the new book will be held the afternoon of Jan. 7.

Fourteen Madison county farmers used the new book in 1965 on a trial basis. Several revisions were made in the final printing as a result of their experience and recommendations.

to the price paid for standing timber.

**Higher Crop Yield Tip** Higher crop yields continue to offer the greatest opportunity for reducing per bushel or per ton production costs on soybean farms. Liberal applications of fertilizer are usually necessary to maintain high yields. Good management practices must accompany fertilization to make the additional fertilizer profitable.

As long as another dollar invested in fertilizer gives you an additional net return of at least 10 cents, heavier fertilizing probably will be profitable over the long run.

Competition for scarce resources is evident on most farms. Farmers tend to use their resources for the enterprises that make the most money. Studies of Illinois Farm Bureau Records show that more farmers are growing more acres of higher yielding corn and soybeans and less acres of small grains and alfalfa each year.

They are using livestock production techniques that take more capital and make more efficient use of money in raising livestock.

It is becoming more difficult for roughage-consuming livestock to compete for available labor and land in the highly productive soil areas. It takes top management and a good volume of business to make the more highly capitalized dryland operations pay.

**Dairymen Course** A course for all county dairymen will be held Dec. 7, 14 and 21, from 9:30 a.m. to 3 p.m. each day. Instructors will include L. R. Fryman, J. G. Cash, Steve Moore and A. J. Moshing, all of the University of Illinois.

Subjects will include dairy cattle feeding, breeding and selection, milking management, use of pesticides, buildings and equipment and herd health. Notebooks will be supplied each dairymen attending.

Dairymen who have not yet enrolled should send in their names to the farm adviser's office.

**Moldy Soybeans** The great amount of moldy soybeans this fall has caused much concern among farmers and the grain traders. Deckage in price caused by mold has been as much as 30 cents a bushel in some cases.

Environmental conditions, nutrient deficiencies such as potash, early use of defoliant, diseases or any other conditions that interfere with normal plant growth may be responsible for the development of moldy beans. Seeds that are prematurely killed become shriveled and are highly susceptible to invasion by numerous saprophytic fungi. Such fungi live on dead or dying organic matter.
